INSTALLATION INSTRUCTIONS

Individual Surface Mount SM(T) SM(E)

1 Power must be turned off prior to disconnecting or reconnecting fixture.

2 Remove tamper proof set screws from the sides of the fixture. Remove tamper proof screws on endcap and remove from fixture.

3 Remove lens. Remove screws securing reflector and tilt out of the fixture to remove. The reflector will hang from lanyards that are shorter than the boards so these should remain connected.

4 Pass building mains into fixture via selected power location in order to have access to wires from inside the fixture. See step 5-6 for different entry locations. Make connections inside the fixture.
